

## KEY SKILLS:

---

JavaScript • React • Express.js • Node.js • MongoDB • PostgreSQL • Next.js • AWS • Azure • XML •  
TailwindCSS • SCSS • Computer Science • Software Engineering • Cybersecurity

## HIGHLIGHTS OF EXPERIENCE:

---

### Software Engineer

January 2022 - Present

*100devs, Los Angeles, CA – Remote*

- Built modern, responsive, and semantically structured web applications for global clients utilizing JavaScript frameworks such as Next.js and Node.js.
- Applied agile methodologies like scrum for project management.
- Performed application testing across public and private networks.
- Added improvements for site accessibility, responsiveness, search engine optimization, and security.

### Sales Advisor

August 2018 - Present

*Best Buy – Toledo, OH*

- Delivered a world-class customer service and sales experience by asking pertinent discovery questions and assessing the customer's immediate and future needs.
- Contributed to the company's growth by being a consistent top performer in my role, having achieved \$1M+ in sales revenue year-over-year.
- Developed and coached peers and new hires on sales techniques and best practices.

## RECENT PROJECTS:
