WebGL

## 👤 PROFILE

Proficient in an assortment of technologies, including Windows/Linux System Administration, Domain Name System (DNS), Angular, ASP.NET, and Microsoft SQL Server.

• Cloud related Technologies: Google Cloud Platform (GCP) · HashiCorp · Terraform · SAP BW On HANA · SAP S/4HANA · SAP HANA · Microsoft Azure

• Strong and current development experience in React Js, Angular, C#, ASP.NET MVC/Core, .NET Framework, Entity Framework

• Web-Related Technologies: HTML, CSS3, JavaScript, jQuery, Knockout, JSON, Bootstrap, REST API, Web Services

• Database, Server & Applications: SQL Server, T-SQL, Stored Procedures, Functions, SSRS, SSIS, Git, JIRA

• Experience with Databases (Relational and NoSQL), RESTful web services, GraphQL webs services, AWS (or other cloud stack), Micro services, SOAP web services, XML, JSON, HTML, CSS, JavaScript

Environment: Windows Server/Linux, MVC, C#, ASP.NET Core, ADO.NET, XML, SQL SERVER, CSS, HTML, JavaScript, React, Js, Angular, Bootstrap, GraphQL Python, JIRA, AWS, Azure, PowerBi Web API.

Cloud architect & Angular / .NET Developer

## 📁 EMPLOYMENT HISTORY

**Cloud Architect at ITCManagementGroup ([www.itcmanagementgroup.com](http://www.itcmanagementgroup.com)), Fort Pierce**

April 2016 — August 2022

- Responsible for overall system planning and design of Enterprise Resource Planning application.
- Deploy and Maintain Azure VMs, configuring resources according to approved security policies
- Responsible for the development of the company's primary product by the name of CemSites, a Cloud- Based Cemetery Software which results in 75% improvement in application performance.
- Maintained existing angular/C# project and effectively migrated them to latest version (angular -13, asp.net core -6.0).
- Provide design recommendations towards the development of new code
- Kept close communication with all project stakeholders to ensure we come up with good project architecture and reasonable deadlines

**IT Systems Manager at Qishub LLC ([www.qishub.net](http://www.qishub.net)), Ocilla**

November 2014 — March 2016

- Support the installation and configuration of software, hardware and network monitoring system. In addition to performance and troubleshooting issues, ensuring security and efficiency of IT infrastructure.
- Interface between Data Grids and database and stored procedures using ADO.NET Datasets, Data Adapters, and Data Readers.

WebXR

Solidity

- Used ASP.Net features such as Master Page, Themes and Skins to make consistent look-and-feel throughout the website.
- Brought forth vast experience designing and developing responsive design websites, increasing the conversion rates by 25%
- Developed a multi tenant SPA web application with server side rendering.
- Implemented mono-repository using Nx. Put in place store architecture with NgRx.
- I have participated and aware of all sorts of agile ceremonies (user story grooming, sprint planning, sprint retrospective).
- Migrate successfully on premises web application to serverless solution.

Environment: MVC, C#, ASP.NET Core, ADO.NET, XML, SQL SERVER, CSS, HTML, JavaScript, React Js, Angular, Bootstrap, GraphQL, JIRA, Azure, Python, Web API.

#### WEB Application Developer at Amazon (aws.amazon.com), New York City

December 2011 — October 2014

- Implemented and updated application modules under the direction of Senior Software Developers.
- Received in-depth knowledge of ASP.NET Web forms and .NET as a whole.
- Fully controlled the back-end and database of big project which use many connected databases some of them bigger than 1TB
- Developed/Worked with Front-end, Back-end and Databases which gave me the ability to understand the entire spectrum of processes in one big project from the first business analysis to the release of the product.
- Worked on projects with almost a million lines of code gave me a lot of insight about how important the architecture of the project is and how costly a single mistake can be when it is ignored or found too late.
- Had the opportunity to work closely with developers with more than 20 years of experience.

#### EDUCATION

##### Bachelor, State University of New York College of Technology at Alfred, New York City

September 2007 — July 2011

##### Galvanize Inc, New York City

May 2017 — November 2017

Web Specialist Training

##### Devops Engineer, AWS Educate, New York City

June 2015 — February 2016

- Labs, tutorials and training on AWS products
- Open source course content provided by top professors and AWS
- Collaboration tools and a community of cloud experts
