*Co-team lead for Ricoma's first monorepo to launch promotional content*
- Technologies used: React, Nx.js, Hubspot, Vite, Astro.js, Gulp, Typescript, Tailwind, Alpine.js
- Garmeio** | Developer | [Website](#) February 2022 -  
*Ricoma E-Commerce Store Design and order your own custom apparel*
- Technologies used: React, Express, Node.js, Zustand, Tailwind, Apollo GraphQL, Shopify
- Lithium Motors** | Sole Engineer | [Website](#) | [Repository](#) January 2022  
*E-Commerce Landing Page market Electric Vehicles*
- Technologies used: React, Express, Node.js, Zustand, Material UI, Netlify
- Portfolio Website** | Sole Engineer | [Website](#) October 2021
- Technologies used: React, Express, Node.js, RxJS, React Owl Carousel, Netlify
- Code-Warriors** | Co-Team Lead Engineer | [Repository](#) | [Website](#) | [Demo](#) September 2021  
*Interactive multiplayer game where players can play each other to a round of solving algorithms live.*
- Technologies used: MERN Stack, React, Redux, Node, MongoDB, Mongoose Express, Socket.IO, and Material UI
  - Co led a team of 5 software developers to plan, build, and design the product roadmap
  - Devised the database schema by assembling all of the attributes and incorporated associations between models
  - Prioritized analytical speed and flexibility of backend interactions with MongoDB and Mongoose ORM
  - Developed back-end security measures such as protection against database injection attacks and authorization gates
- Ray's Kitchen** | Co-Team Lead Engineer | [Repository](#) | [Website](#) August 2021  
*E-Commerce website where customers can order delicious food and have delivered straight to their doorsteps*
- Technologies used: PERN Stack, React, Redux, Express Node.js, PostgreSQL, Material UI, and Bootstrap
  - Built a full stack single page application (SPA) in 10 days, implementing CRUD to a persistent cart, submitting orders, and additional features such as viewing and filtering products
  - Managed project board to ensure written and verbal communication and collaboratively assign team tasks

## PROFESSIONAL EXPERIENCE

- Ricoma International Corporation** | Full Stack Developer February 2022 – Present
- Maintained Ecommerce sites and develop admin tools using Laravel, VueJs, JavaScript, and MySQL
  - Mentor and supervise junior developers, providing technical support through code reviews and documentation
  - Modified company's web-based applications which improved SEO and user dynamics by 30%
  - Restructured homepage codebase, decreasing overhead changes by more than 25%
  - Updated and maintained Landing page tech stack that improved CI/CD with Hubspot automation workflows
  - Collaborate with executive suite and UI/UX teams to implement changes on internal and external platforms
- Freelance** | Software Engineer September 2021 – March 2022
- Collaborate with small business clientele to develop or update web-based applications
- K.T. Billing** | Database Administrator/IT Support June 2016 – February 2022
- Developed and maintained IT technology for rapid billing logistics within the healthcare industry
  - Reduced overhead by more than 20% by writing training manuals that improved company workflows
- CLAIMS ONE** | IT Support June 2012 – June 2016
- Managed end-user issues in an effort to minimize interruptions, secure data, and maximize response times
- UNITED ELECTRONICS GROUP** Elk Grove Village, Illinois | Electronics Lead Engineer June 2012 – September 2018
- Troubleshooted electronic systems, devised repair schemas, and tested systems designs
  - Coordinated with tech/engineering teams to develop integration plans and technical profiles
- CLAIMS ONE** Aurora, Illinois | Account Manager/IT Support January 2008 – June 2012
- Built first entire IT infrastructure for rapid billing logistics resulting in increased sales, production, and revenue
- CANON USA** Aurora, Illinois | DSLR Electronics Engineer June 2006 - July 2008
- Engineering work involving remodeling products, analyzing schematics, and troubleshooting deficiencies

## EDUCATIONAL QUALIFICATIONS

- FULLSTACK ACADEMY** New York, NY  
Software Engineering (17-Week Full Stack Immersive) September 2021
- UNIVERSITY OF MEMPHIS** Memphis, TN  
International Business, Management minor Japanese language June 2005
