---

## Summary

Highly motivated, creative developer looking to contribute to an organization that is solving the most important problems. I have a high level of detail and am mission driven. I'm a charismatic problem solver who spent his life in customer service and now wants to make a difference with code.

---

## Skill & Abilities

**Front end:** Html5, CSS3, JavaScript (React), Bootstrap, JQuery, JQueryUI

**Customer Service:** Customer first, tailored for the customer - platinum rule - treat them how they want to be treated.

**Back end:** Java, Node Js, RDBMS, SQL Server, MySQL (Workbench), Spring Framework, JUnit

**Servers:** Apache Tomcat. MSFT SQL Server

**Multi-Stage | Multi-Tasking:** Utilize machine learning to improve customer experience.

**Others:** Github, VScode, MsOffice including advanced Excel, Google Workspace

---

## Experience

### Per Scholas Graduate

**11/2021-3/2022**

Created projects using fullstack JavaScript and a variety of other libraries, languages, and frameworks.

#### Noted Projects:

**Movie Club Society!:** A React application that allows users to rate movies and keep a shared list of movies that have been watched and will be watched by anyone in their Club Circle. Uses a third party API as well as a self created API to track and display data.

**Bat-Computer '66':** A MySQL Database of information about 1966 Batman. The application is built in React and uses SpringToolSuite to manage the backend. Users include hobbyists who pull data to their applications.

### Lead Bartender MOTR Pub OH

**11/2010 - Present**

Manage a professional staff in a high volume setting which saw an increase in sales during the Covid-19 crisis. Lead the design and implementation of our Speed Screen menu which streamlines order times and customer satisfaction. Highest customer relations statistics in the organization leading to a loyal and repeat customer base.

### School Parent Volunteer Lincoln Elementary

**8/2020-Present**

During Covid-19, I set-up end of year events for the school. I continue to coordinate festival events and booths for the students and established a process for dissemination of outcomes to the school administrators.
