# Dominique Foley

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs | Remote

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

**Recent Project:**

**Storybooks (Fullstack Web App)** – Users can login to their profile and find their list of public and private stories. They can add new stories through an input, which they can then edit or delete all stories on their profile. They can also view public stories posted by all users.

**Other Projects:** Small Lakes Casino Virtual Slot Machine, Scranton StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

### Full Stack Web Developer at Dom's Web Consulting | Scranton, PA

March 2020 — Present

Created full-stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on SEO and social media strategy.

### Hardware Technician C3i Solutions | Pittston, PA

May 2022 — Present

Established a strategy that improved efficiency among my team and helped develop a precise communication method that raised team morale further improving overall productivity.

## VOLUNTEERING

### Black Scranton Project | Scranton, PA

March 2022 — Present

Helped to optimize web presence and organize email responses to FAQs.
